

PALET'EASE

Palletizing and depalletizing

Simplified palletizing

- Through its installation – on-site deployment in 1 hour
- Through its mobility – quick changeover between production lines
- With an accessible HMI – adjustable speed, height and layout
- Through its use
 - Smoothness in the palletizing task
 - Interaction between operator and robot

A flexible solution

- Available in 3 models – small/medium/large
- Available in a collaborative model
